

# All fired up without the smoke

Great local sporting events, like Renegades games, always pack the bar. In the past though, instead of smelling victory in the air, all we'd smell was smoke. But this season, with the success of the smoke-free initiative, our customers can watch the game and have a great time. It's all the fun without the smoke. And it's a much more pleasant and healthier experience for my staff. Thanks to the people of Ottawa for supporting this initiative, and for continuing to support local businesses.
